

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Rikki Swinn
DOCKET NO.: 03-27994.001-R-1
PARCEL NO.: 17-10-221-052
TOWNSHIP: North

The parties of record before the Property Tax Appeal Board (hereinafter PTAB) are Rikki Swinn, the appellant, by attorney Mitchell L. Klein with the law firm of Schiller, Klein & McElroy in Chicago and the Cook County Board of Review.

The subject property consists of a 1,581 square foot parcel of land containing a seven-year old, three-story, masonry, attached, single-family dwelling. The improvement contains 2,799 square feet of living area, three and one-half baths, and air conditioning. The appellant, via counsel, argued that there was unequal treatment in the assessment process of the improvement as the basis of this appeal.

In support of the equity argument, the appellant submitted assessment data and descriptions of five properties suggested as comparable to the subject. Black and white photographs of the subject property and the suggested comparables and a brief from the appellant's attorney were also submitted. The data in its entirety reflects that the properties are located on the subject's street and are improved with a three-story, masonry, attached, single-family dwelling with three full baths and air conditioning. The improvements are all seven-years old, contain 1,965 square feet of living area and range in improvement

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 12,648
IMPR.: \$117,365
TOTAL: \$130,013

Subject only to the State multiplier as applicable.

assessments from \$21.90 to \$22.83 per square foot of living area. Based upon this analysis, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted "Board of Review-Notes on Appeal" wherein the subject's improvement assessment was \$117,365, or \$41.94 per square foot of living area. The board also submitted copies of the property characteristic printouts for the subject as well as three suggested comparables located on the subject's street. The board's properties contain a three-story, masonry, attached, single-family dwelling with three and one-half baths and air conditioning. The improvements are all seven-years old and contain 2,799 square feet of living area. They range in improvement assessments from \$41.93 to \$42.35 per square foot of living area. As a result of its analysis, the board requested confirmation of the subject's assessment.

In rebuttal, the appellant's attorney submitted a letter and a grid listing assessment information for 32 properties. The PTAB finds that 29 of the properties submitted in rebuttal are new evidence and, under Section 1910.66(c) of the rules of the Property Tax Appeal Board, are precluded from consideration by the PTAB. 86 Ill.Admin.Code, 1910.66 (c).

After considering the evidence and reviewing the record, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

Appellants who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill. 2d 1, 544 N.E.2d 762 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. Proof of assessment inequity should include assessment data and documentation establishing the physical, locational, and jurisdictional similarities of the suggested comparables to the subject property. *Property Tax Appeal Board Rule 1910.65(b)*. Mathematical equality in the assessment process is not required. A practical uniformity, rather than an absolute one is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill. 2d 395, 169 N.E.2d 769 (1960). Having considered the evidence presented, the PTAB concludes that the appellant has not met this burden and that a reduction is not warranted.

The parties presented assessment data on a total of eight equity comparables. The PTAB finds the board of review's comparables are the most similar to the subject. These three comparables contain a three-story, masonry, attached, single-family dwelling located on the subject's street. The improvements are all seven-

years old and contain 2,799 square feet of living area. They range in improvement assessments from \$41.93 to \$42.35 per square foot of living area. In comparison, the subject's improvement assessment of \$41.93 per square foot of living area falls within the range established by these comparables. The PTAB accorded less weight to the remaining comparables due to a disparity in size.

As a result of this analysis, the PTAB further finds that the appellant has not adequately demonstrated that the subject's improvement was inequitably assessed by clear and convincing evidence and that a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
